## Label elements

### Emergency Overview

#### Danger

**Hazard statements** Seek medical attention in case of accidental exposure or overdose. The product is generally safe when used as prescribed> Overdosage can lead to liver damage.

Note: This document has been prepared in accordance with standards for workplace safety, which require the inclusion of all known hazards of the active substance or its intermediates regardless of the potential risk. The precautionary statements and warnings included may not apply in all cases. Your needs may vary depending upon the potential of exposure in your workplace.

This mixture is a drug product regulated by the FDA. Within the meaning of the OSHA Hazard Communication Standard [29 CFR 1910.1200]: this mixture is not considered a hazard when used in a manner which is consistent with the labeled directions.

**Appearance:** White to off-white suspension

**Physical state:** Suspension

**Odor:** Grape

## Emergency overview

Seek medical attention in case of accidental exposure or overdose. The product is generally safe when used as prescribed.

Note: This document has been prepared in accordance with standards for workplace safety, which require the inclusion of all known hazards of the active substance or its intermediates regardless of the potential risk. The precautionary statements and warnings included may not apply in all cases. Your needs may vary depending upon the potential of exposure in your workplace.

Eyes:                      Avoid contact with eyes.

Skin Contact:            Avoid skin contact.

Inhalation:                Not intended for inhalation.

# Safety Data Sheet

Issuing date: 08MAR2022    Revision date: 08MAR2022    Revision number: 00

Ingestion: Generally safe at recommended doses. In case of overdose, seek medical attention immediately.

Storage: There are no special storage conditions for safety. For product integrity, store under conditions specified on the label.

Disposal: Dispose of in accordance with applicable laws and regulations.

## 4. First aid measures

### Description of necessary first-aid measures

**Eye contact:**

Flush with running water for 15 minutes holding eyelids open. Contact medical personnel if irritation persists.

**Skin contact:**

Wash contaminated area thoroughly. If irritation persists, contact medical personnel.

**Inhalation:**

Remove to fresh air and contact medical personnel.

**Ingestion:**

The product is intended for ingestion. In the case of accidental ingestion or overdose, contact medical personnel.

### Most important symptoms/effects, acute and delayed

Toxicity may result from acetaminophen overdose. Contact medical personnel or poison control immediately if overdose is suspected.

### Indication of immediate medical attention and special treatment needed, if necessary

Immediate medical attention is required if overdose is suspected.

Notes to Physician: NA

## 5. Fire-fighting measures

**Suitable extinguishing media:**

Use carbon dioxide, dry chemical or water spray.

**Specific hazards arising from the chemical**

Not applicable.

**Explosion data:**

Not applicable

**Protective equipment and precautions for firefighters**

During all firefighting activities, wear appropriate protective equipment, including self-contained breathing apparatus.

## 6. Accidental release measures

**Personal precautions, protective equipment and emergency procedures**

Personnel involved in clean-up should wear appropriate personal protective equipment (See Section 8). Minimize exposure.

**Environmental precautions**

Place waste in an appropriately labeled, sealed container for disposal. Care should be taken to avoid environmental release.

**Methods and materials for containment and cleaning up**

- Methods for containment:
- Methods for cleaning up:

Isolate area around spill as specified by site procedures. Absorb the liquid with suitable material. Dispose of spill material in accordance with applicable federal, state or local regulations.

## 7. Handling and storage

### Precautions for safe handling

Handling: No special handling required for hazard control under conditions of normal product use.

### Conditions for safe storage, including any incompatibilities

Storage: No special storage required for hazard control. For product protection, follow storage recommendations on the case label, primary product label and insert.

### Incompatible products:

As a precautionary measure, keep away from strong oxidizers.

## 8. Exposure controls/personal protection

### Control parameters

Exposure guidelines: The exposure guidelines listed below are for the individual components and not the product itself.

### Appropriate engineering controls

Engineering measures: Engineering controls should be used to limit exposure.

### Individual protection measures, such as personal protective equipment

Eye/face protection: Not required under normal conditions of use. Wear safety glasses or goggles if eye contact is possible.

Skin and body protection: Not required under normal conditions of use. Wear protective clothing when working with large quantities.

Respiratory protection: Not required under normal use of the product.

Hygiene measures: Wash hands thoroughly after use.

## 12. Ecological information

**Ecotoxicity:**

Environmental properties have not been thoroughly evaluated. Releases to the environment should be avoided.

**Persistence and Degradability**

No data available

**Bioaccumulation**

No data available

**Other adverse effects:**

No data available.
